Focus on the game. We will handle the rest.

Cardhansa Cookie Policy

version 1.0 · in force from 1 July 2026

Table of contents:

- Definitions
- §1 What cookies and similar technologies are
- §2 Legal basis and your consent
- §3 What cookies we use: categories and full inventory
- §4 Cookies, personal data and supervision
- §5 How to manage cookies
- §6 Changes to this Policy and version history

Definitions

Capitalised terms not defined in this Policy have the meaning given in the terms and conditions of the services available in the Service.

Cookies – small text files saved on your device by the browser when you use the Service. Together with cookies, we also describe similar technologies here, in particular localStorage and sessionStorage (browser memory).

Service – the Cardhansa website available at cardhansa.com, including its subpages and subdomains.

Controller (also: **Cardhansa**, **we**) – Daniel Majewski Cardverse, a sole trader registered in the Polish Central Register and Information on Economic Activity (CEIDG), using the brand name Cardhansa (full details in the Privacy Policy).

§1 What cookies and similar technologies are

1. **What they are for.** Cookies let the Service recognise your browser: thanks to them you stay signed in, your cart does not disappear between visits, and the Service remembers your settings.
2. **Session and persistent.** Session cookies live only until you close the browser. Persistent cookies remain on the device for the period given in the inventory in §3, or until you delete them.
3. **First-party and third-party.** We set cookies in the Service within our domain (first-party). The exception is the bot protection used when you sign in and when you subscribe to the newsletter: it runs in a frame of that protection's provider and saves cookies in its domain (third-party). The inventory in §3 gives the provider of each item.
4. **Browser memory.** localStorage and sessionStorage are browser memory: data saved there is not sent automatically with every request; it is read by the Service on your device.

§2 Legal basis and your consent

1. **Basis.** We use cookies and similar technologies in accordance with Article 399 of the Polish Act of 12 July 2024, the Electronic Communications Law, and with the GDPR.
2. **Without consent, only what is necessary.** Without your consent, the only cookies and browser memory entries that operate are those necessary to provide the services you explicitly request (Article 399(3) of the Electronic Communications Law): sign-in, security, the cart and remembering your settings. In the same way we also remember the very decision you make in the cookie banner, so that we do not ask you about it on every visit.
3. **Consent in the banner.** For the remaining categories we ask for consent in the banner on your first visit. Consent is voluntary and granular: the "OK" button accepts all categories, and in "Settings" you can switch each category on and off separately or reject all of them. Using the Service does not depend on your decision.
4. **Nothing on your device without consent.** Without your consent we do not save or read any analytics cookies or browser memory entries on your device, and we count visits only in aggregate, without recognising you on subsequent days.
5. **We remember your choice.** We remember your banner choice for up to 12 months. After that, we will ask again.
6. **Withdrawing consent.** You can change or withdraw consent at any time via the "Cookie settings" link in the footer of the Service. Withdrawal is as easy as giving consent and does not affect earlier processing.

§3 What cookies we use: categories and full inventory

1. **Necessary.** They enable signing in, keeping your session, protection against bots, correctly placing an Order and remembering your banner choice. They always operate, without consent. If you block them in your browser, you will not be able to sign in or place

orders.

Name or pattern	Provider	Type	Kind	Purpose	Period
__session, __client_uat and related	Clerk (sign-in)	cookie	session or persistent	maintaining your session and signed-in state	session or up to approx. 12 months
_cfuvid, __cf_bm	Cloudflare (sign-in infrastructure)	cookie	session	security, bot protection	session or up to 30 minutes
bot protection cookies (challenges.cloudflare.com domain)	Cloudflare	third-party cookie	session	telling a human from a bot when signing in and subscribing to the newsletter	session
cookie_consent	Cardhansa	cookie	persistent	remembering your choice in the cookie banner	up to 12 months
working data of the Order being placed	Cardhansa	sessionStorage	session	correctly placing an Order: protection against double submission, one-time confirmation and a draft of your submission	until you close the browser tab

2. **Functional.** They remember your settings and the contents of your cart. They operate without consent because they deliver a service you request (Article 399(3) of the Electronic Communications Law). If you delete them, the cart will be emptied and the Service will return to default settings.

Name or pattern	Provider	Type	Kind	Purpose	Period
interface preferences (e.g. language, country)	Cardhansa	cookie	persistent	remembering your settings	up to 12 months
cart	Cardhansa	localStorage	persistent	keeping the contents of your cart between visits	until you delete it

3. **Analytics.** They show us how you use the Service: which features work well and where something is inconvenient. Thanks to your consent we know what to improve and where to look for problems you may have run into. They operate only with your consent.

Name or pattern	Provider	Type	Kind	Purpose	Period
ph_*_posthog	PostHog	cookie and localStorage	persistent	statistics of visits and use of the Service (pseudonymous identifiers; content and form data are masked)	up to 12 months

4. **Diagnostics.** The Service's error monitoring tool does not save anything on your device; error events are sent directly to the provider. It operates on the basis of the Controller's legitimate interest (stability and security of the Service); details in the Privacy Policy.

§4 Cookies, personal data and supervision

1. **When a cookie is personal data.** A cookie on its own does not always identify you. When, however, it is combined with other information (e.g. with your Account), it becomes personal data: its processing is then described in the Privacy Policy (purposes, bases, rights, recipients).
2. **Pseudonymised analytics.** Analytics identifiers are pseudonymous, and content and form data are masked before anything reaches the tool.
3. **Supervision.** Compliance with personal data protection rules is supervised by the President of the Polish Personal Data Protection Office (uodo.gov.pl), and compliance with the rules on cookies and terminal equipment by the President of the Polish Office of Electronic Communications (uke.gov.pl).

§5 How to manage cookies

1. **In the Service.** The simplest way: the "Cookie settings" link in the footer. There you can change or withdraw consent at any time.
2. **In the browser.** You can review, restrict and delete cookies in your browser settings. Instructions for the most popular browsers: a. Chrome, b. Firefox, c. Safari, d. Edge, e. Opera.
3. **Effects of blocking.** Blocking necessary cookies will prevent signing in and placing orders. Deleting functional ones will empty the cart and reset your settings. Without consent for analytics we see only the aggregate number of visits, so it is harder for us to tell

what in the Service is worth improving.

4. **Private mode.** In private (incognito) mode the browser deletes cookies when you close the window: on your next visit the banner will ask for your consent again, and the cart will not be remembered.

§6 Changes to this Policy and version history

1. **Updates.** We update the Policy when the technologies we use or the law change. Each version has a number, an effective date and a short description of changes, and earlier versions are archived in the Service.
2. **How we inform you.** We will inform you of significant changes in the Service before they take effect.
3. **Language.** This document is drawn up in Polish; the English version is provided for convenience. In case of any discrepancy, the Polish version is binding.
4. **Version history.**

Version	Effective from	What changed
1.0	1 July 2026	first version of the Policy
